## 2002 PINOT NOIR ICEWINE

The 2002 vintage of Icewine is unique in that winter temperatures did not drop below  $-8^{\circ}\text{C}$  until February 25<sup>th</sup>, 2003. The longer we wait for cold weather, the greater the risk of crop loss. This is the longest we have ever waited for the temperatures to be cold enough to freeze the grapes.

Grown at the Harvest Vineyards in South East Kelowna, our pickers were able to glean out a very small amount of Pinot Noir.

This unique Icewine displays a stunning yet delicate pink colour, with appealing aromas of nectarine and strawberry. The palate offers a rich, full-bodied, smooth taste with subtle hints of cranberry and loganberry, finishing with gripping acidity and sumptuous texture.
